Product Description

Bubs Goat Milk Stage 1 Infant Formula is exclusively formulated for tiny tummies aged 0 to 6 months.

We understand the importance of a happy tummy for your little one. Our Bubs Goat Milk Infant Formula is derived from naturally occurring A2 Goat Protein and contains natural goat milk of the highest quality. The unique composition of goat milk is naturally easy to digest, making it ideal for bubs with sensitive tummies. Clean Label Project ® Certified, Non-GMO, and contains no artificial growth hormones, artificial colours, nasty preservatives, or artificial additives.

Our goat milk is securely sourced from our high quality farmers, selected to meet our strict controls on quality and transparency. Our goat milk products are proudly Australian blended and packed in our own secure facility in Victoria, Australia.

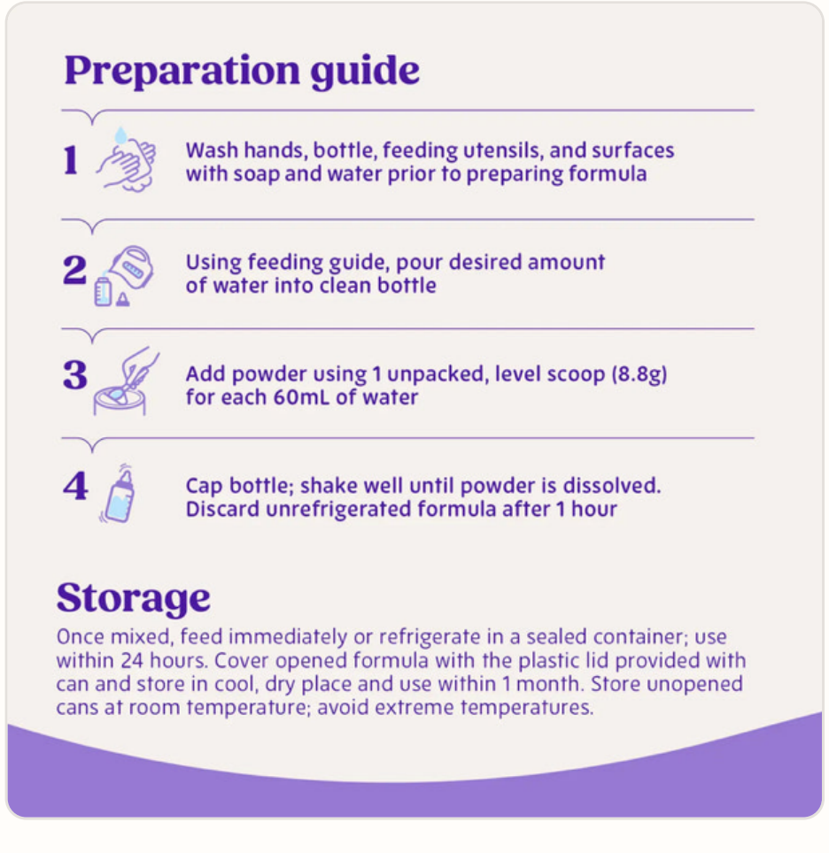
INGREDIENTS
Lactose, Goat **Milk** Solids (Goat Full Cream **Milk** Solids, Goat **Whey Protein** Concentrate) 28%, Vegetable Oil Blend (Sustainable Palm Olein, High Oleic Sunflower Oil, Canola Oil, Sunflower Oil, Coconut Oil), Galacto-Oligosaccharide **(GOS)**, Docosahexaenoic Acid **(DHA**, From Alage), Emulsifier **(Soybean** Lecithin), Arachidonic Acid **(ARA)**, Choline Bitartrate, Inositol, Taurine, Antioxidants (α-Tocopherol, Ascorbyl Palmitate), L-Carnitine.

Vitamins: Sodium Ascorbate, dl-α-Tocopheryl Acetate, Vitamin A Acetate, Niacinamide, Calcium Pantothenate, Cyanocobalamin, Cholecalciferol, d-Biotin, Folic Acid, Phytonadione, Thiamine Hydrochloride, Riboflavin, Pyridoxine Hydrochloride.

Minerals: Sodium Citrate, Calcium Carbonate, Potassium Chloride, Ferrous Sulphate, Magnesium Sulphate, Magnesium Chloride, Calcium Phosphate, Zinc Sulphate, Copper Sulphate, Manganese Sulphate, Potassium Iodide, Potassium Phosphate, Sodium Selenite.

Allergens: Contains Dairy and Soy.



Preparation guide

1 Wash hands, bottle, feeding utensils, and surfaces with soap and water prior to preparing formula

2 Using feeding guide, pour desired amount of water into clean bottle

3 Add powder using 1 unpacked, level scoop (8.8g) for each 60mL of water

4 Cap bottle; shake well until powder is dissolved. Discard unrefrigerated formula after 1 hour

Storage
Once mixed, feed immediately or refrigerate in a sealed container; use within 24 hours. Cover opened formula with the plastic lid provided with can and store in cool, dry place and use within 1 month. Store unopened cans at room temperature; avoid extreme temperatures.

Storage Conditions

Close lid tightly after each use. Store in a cool, dry place. Use within 4 weeks of opening. Do not use if foil seal is damaged or missing.

was gifted Bubs Goat Milk Stage 1 Infant Formula for my honest review, and overall I've been really impressed with it. My first impression was that the packaging looked clean, premium, and easy to understand, especially when preparing bottles during busy moments. The formula itself mixed smoothly with water and didn't leave clumps behind, which I appreciated. I also liked that it's made with Australian goat milk and includes ingredients such as DHA, ARA, and prebiotics. The tin was easy to open and store, and the scoop design made measuring simple and convenient. One small downside for me was the price point, as it is slightly more expensive than some other formulas on the shelf, but the overall quality and presentation made it feel worth c... Read more ▾

Bubs Goat Milk formula has been an amazing fit for our baby. I like that it's Australian made, as it makes me feel better about what she's having. It mixes very well too, no clumps and the smell isn't overpowering like others! I also think the price is very decent for the nutritional value your bub will be getting. The transition to this brand went very smoothly and I most definitely recommend this formula for every bub that can tolerate it!

It has been great using this formula for my baby as it gives me peace of mind that he's having high quality and nutritious milk to support his development and growth. This is our first time trying goat milk and I love that it's Australian, has A2 protein and is easily digestible so is gentle on little tummies. I received this product as a gift for my honest review.

We were really looking forward to trying this formula as my bub is very fussy on what formula he will drink, we have tried quite a few and have not found one he loves, only tolerates. We were really happy with his reaction to this one! The tin is beautifully presented and very informative and highlights its benefits which encouraged us to give it a go, and it mixes in well and isn't gritty like formula can be. Our baby took to it well and we love goat milk formula so we are stoked we found this product!!

I was gifted the Bubs Goat Milk Infant Formula Stage 1 for my honest review, and overall I've been really happy with the experience. The formula mixes smoothly and quickly, making bottle preparation simple, especially during busy days. I like that it's made with goat milk and includes ingredients like DHA, omega-3, prebiotics, and probiotics. The packaging feels premium and practical, with clear instructions and an easy-to-use scoop. One small downside was having to dig for the scoop after opening the tin, but aside from that, the overall quality and convenience have been impressive. It feels like a thoughtfully made formula for modern families.

FINALLY! I wish I had just started my baby on this goat milk from the start. My baby was so fussy on cow milk formula, just really gassy and uncomfortable. It made it hard for him to fall asleep and I was at my wits end. Once I started him on Bubs goat milk, I could see pretty quickly how much easier it was for him to digest and he was calmer at feeding time. 5 stars for Bubs goat milk!

Great Experience — My baby is fully breastfed, and only has formula when I am at work as I struggle to pump. We chose this formula in hopes it would be gentle on his tummy, and it's been great. He takes it well so he doesn't hate the taste, and we've noticed no tummy issues at all. Because we only use 2-3 times a week a large tin was being wasted, so I like the option of the half size tin as well.
