Product Overview

Enfamil® NeuroPro® EnfaCare® Premature Infant Formula

Enfamil® NeuroPro® Enfacare® is a discharge formula designed to support the special nutritional needs to support catch-up growth in babies born prematurely or at a low birth weight as they are transitioning home from the hospital.

Our NeuroPro® Enfacare® is formulated to support the special nutritional needs of babies born prematurely or at a low birth weight transition home. NeuroPro® Enfacare® has additional content of protein, calcium, and vitamins & minerals compared to standard term formula to help support early growth & helps your little one catch up to full-term, breastfed infants.[1*]

*When used in a program of Enfamil formulas: Enfamil® Premature, Enfamil® EnfaCare®, and Enfamil® Infant. Studied before the reformulation of Enfacare based on a clinical study before the addition of prebiotics to Enfamil Infant. Studied before the reformulation of Enfacare

- **Clinically shown to promote catch-up growth during the first year[1,*]**
- Milk-based, 22 Cal/fl oz formula with enriched nutrition and a blend of nutrients to help support baby's immune system
- **Naturally occurring Milk Fat Globule Membrane (MFGM)[1] components from whey protein concentrate previously found only in breast milk[2,3]**
- **Expert recommended Omega 3 DHA for brain-building nutrition inspired by breast milk from the formula brand that's #1 recommended by pediatricians**
- **A leading post-discharge formula brand that has a fat-protein blend of naturally occurring MFGM components[1] from whey protein concentrate and DHA, previously only found in breast milk[2]**
