Product Details | Organic Infant Goat Milk Formula 1

This first infant milk formula is suitable for the special feeding of infants from birth when they are not or not sufficiently breastfed. With goat's milk in biodynamic Demeter quality, for more animal welfare:

- Goats must be guaranteed access to fresh air 365 days a year*.
- They are fed 100% organic fodder, at least half of which in Demeter quality sourced directly from the farm or from the region.
- Dehorning is prohibited: they are their sensory and communication organ.

*according to EU organic regulation
