FORMULATED TO THRIVE

Fortini is everything you need in a failure to thrive (FTT) infant formula—at the ready. It delivers calories and confidence to help you and your baby thrive. Because, together, we were made for this.

- Nutritionally complete
- Energy- and nutrient-packed
- 50% more catch-up calories per ounce than standard baby formula
- Convenient, ready-to-feed, no mixing required
- As gentle on tiny tummies as standard baby formula

Fortini Infant is specially formulated for the dietary management of infants from 0-18 months of age (or 19.8 lbs) with or at risk of growth failure, increased energy requirements, and/or fluid restrictions due to conditions such as:

- Congenital heart disease
- Chronic lung disease
- Respiratory syncytial virus
- Neurological syndrome or neuro-disabilities
- Cystic fibrosis
- Non-disease-related failure to thrive

POWERED FOR CATCH-UP

- The vitamins, minerals and protein little bodies need, as well as key nutrients similar to those found in breast milk:
 - DHA and ARA promote eye and brain development
 - A prebiotic blend that helps support baby's healthy tummy and immune system
- Used in Europe, helping babies thrive for more than 20 years in more than 30 countries

FORTINI IS INTENDED FOR USE UNDER MEDICAL SUPERVISION.

★★★★★
My little girl has congenital heart disease (scheduled to have her open heart surgery this coming Friday) and no amount of fortification of her Enfamil Gentlelease could make her gain weight. No throwing up, her body just burned too many calories doing basic functions due to the heart issues. One week onto Fortini and she had her first leg roll :) She is still FTT, and will be until her heart is mended, but Fortini gave her a new sense of vibrancy that nothing else could. If a doctor recommends it to you, do everything in your power to get your hands on it. Harness WIC, pester your insurance, whatever. It will change your baby's life.

★★★★★
It's a great product. My baby was born pre-mature, and we are really happy about this product because it delivers 50% more catch-up calories per ounce than standard baby formula. It's really convenient to use because it's ready to feed and no mixing is necessary. It has been used for more than 20 years in over 30 countries. I will continue to use this product at least till my baby is 2 years old. Thank you.

★★★★★
Great! Convenient and my pediatrician has already seen a difference

06/21/2022

★★★★★
My baby was on Fortini before the hospital decided to switch her to Neosure concentrated to 30 cals. She absolutely hated it and we had to switch back to Fortini. She loves this formula and it is exactly what she needs without added mixing and measurements.

★★★★★
The experience has been amazing for our son with Fortini. He enjoys it and we have seen great results with growth catch up. I am receiving a coupon in exchange for writing a review.

06/18/2022

★★★★★
Our grandson has thrived and has loved every bottle of Nutricia Fortini. We love and appreciate your product.

06/18/2022

★★★★★
Great! My pediatrician has already noticed a difference and the packaging is so convenient

06/17/2022

★★★★★
All moms know how hard it is to take care of a preemie or underweight baby. My niece has been struggling to keep weight on her preemie to the point the doctored felt she was malnourished and underweight. Our hope was Fortini would give the baby her much needed nutrition and we are pleasantly surprised. The baby is gaining weight and she likes the taste of her new formula. Thank you Fortini!
